

Aldo R. Boccaccini is Professor of Biomaterials and Head of the Institute of Biomaterials at the University of Erlangen-Nuremberg, Germany. He is also visiting Professor at Imperial College London, UK. He holds an engineering degree from Instituto Balseiro (Argentina), Dr-Ing. from RWTH Aachen University (Germany) and Habilitation from TU Ilmenau (Germany). The research activities of Prof. Boccaccini are in the field of glasses, ceramics and composites for biomedical, functional and/or structural applications. He has been a visiting professor at different universities around the world and has given more than 150 presentations at international conferences (as keynote, invited and plenary speaker). Boccaccini has published more than 1000 scientific papers and 25 book chapters. He has co-edited 10 books. His work has been cited more than 115,000 times (h-index = 154) according to Google Scholar®. Boccaccini was included in the “Highly Cited Researchers” lists in 2014 and 2018 (Clarivate Analytics). He is also listed as one of the most cited researchers in the world according to the latest editions of the Stanford List of Highly Cited Researchers published in 2023, 2024 and 2025. Boccaccini was the editor-in-chief of the journal *Materials Letters* (2010-2023), he is currently editor of the journals *Progress in Materials Science* and *Bioactive Materials*. He serves in the editorial board of more than 10 international journals. Boccaccini served as the president of the Federation of European Materials Societies (FEMS) for the regular two year period (2024-25), having been a member of the Board of FEMS since 2016. He has received multiple awards and honors, including the Materials Prize of the German Materials Society. In 2022, he was conferred the degree of Honorary Doctor of Philosophy at Åbo Akademi University, Turku, Finland, and in 2025, he received three Honorary Doctorates; from Riga Technical University (Latvia), Alexander Dubček University of Trenčín, (Slovakia) and International University of Catalonia Barcelona (Spain). He was member of the Council of the European Society for Biomaterials (ESB) for 8 years (2015-2023), serving as ESB vice-president in the period 2020-2023. In 2023, he was elected Fellow of Biomaterials Science and Engineering (FBSE) by the International Union of Societies for Biomaterials Science and in 2024 he was inducted to the prestigious College of Fellows of the American Institute for Medical and Biological Engineering (AIMBE).
